-

EXPERIENCE

GILBARCO VEEDER-ROOT: Production Supervisor – Greensboro, NC **2018 – Apr 2019**

Supervised the daily production of 25 fuel dispensers and pumps valued at over \$100k by the leadership and management of over 30 hourly Union associates. Responsible for the daily management of safety, quality, delivery, inventory and productivity by interfacing with a select team of engineers and material planners.

- Consistently achieved monthly and quarterly revenue and delivery goals of over \$1M and over 300 units
- Improved employee engagement results by over 20% by effective communication and leadership
- Hand selected and served as the team leader for a Lean Conversion Kaizen which reduced ergonomic safety risks by 60%, improved production capacity by 20%, and redesigned material management to reduce risk

UNITED STATES MARINE CORPS: **2006 – 2017**

Mission Assurance Strategic Operations Analysis Officer – Scott AFB, IL **2015 – 2017**

Provided senior executives at United States Transportation Command (USTRANSCOM) with risk analysis for strategic mobility assets and infrastructure through the monitoring of all threats and hazards, synchronizing information against operations to determine relevance, determining mitigation methods, and assessing the residual risk. Recognized as Company Grade Officer of the Quarter three times.

- Conducted detailed research and analysis of risk to global transportation assets worth billions of dollars and prepared weekly briefs of risk mitigation recommendations to senior executive officers (General Officers)
- Planned risk mitigation to transportation in support of global crisis and contingency operations
- Authored USTRANSCOM input to six department-level joint doctrine publications during periodic reviews and development resulting in selection as an organizational advocate for future Joint Force development

Future Operations and Readiness Analysis Officer – Okinawa, Japan **2013 – 2015**

Integrated Military Police capabilities into international security cooperation exercises, planning for Military Police Operations in contingency response, and incorporated Military Police into training exercises. Received a third Marine Corps Commendation Medal for superior achievement and distinction.

- Analyzed customer requirements and marketed the utility of the Military Police organization integration which resulted in the addition of 10 international security cooperation training exercises
- Managed two functional programs and earned highest possible rating on the Commanding General's Inspection with a "Best Practice" distinction

AUGUST A. MCCLUNG

<https://www.linkedin.com/in/august-mcclung> • +1.650.753.9992 • august_mcclung@me.com

Leader/Manager (Company Commander) – Okinawa, Japan **2012 – 2013**

Supervised newly created company of 120+ team members and oversaw all aspects of their professional employment and development, personnel administration, logistical support, information and personnel security, and well-being.

- Organized, directed, and supervised five subordinate officers and 120+ team members by establishing priority of efforts, delegating tasks, and supervising performance; counseled and conducted performance evaluations
- Developed a robust training plan that resulted in the company being functionally capable of effectively training with a foreign partner organization within four months of initial inception
- Supervised the maintenance, accountability, storage, use, and transit of \$5M of equipment through sustained use and international movements over one year period and achieved zero losses

Curriculum & Personnel Manager (Course Officer in Charge) – Chesapeake, VA **2009 – 2012**

Supervised a team of 25 instructors. Planned, executed, and supervised a six week curriculum taught to approximately 1,200 entry level students annually. Graduates of the course were destined to reinforce US Embassies globally, secure US Navy strategic assets, and protect our Nation's President. Received a second Marine Corps Commendation Medal for superior achievement and distinction.

- Supervised the curriculum implementation for 60+ classes and graduating approximately 3,600 students with a 44% instructor deficit through the effective and efficient management of personnel
- Innovated instructor and student management by data analysis which improved instructor qualifications by 50%, increased graduating student GPAs by 1%, and reduced academic failure rates by 500%

Program Manager & Security Professional (Platoon Commander) – Al Asad AB, Iraq **2008 – 2009**

Served in position three levels higher based on exceptional program understanding and competency. Leader and manager of two functional responsibilities: Installation Access Control and Installation Security Response Force. Received first Marine Corps Commendation Medal for exceptional performance.

- Led and supervised an organization of 58 personnel responsible for the installation security reinforcement and for biometric identification / screening for installation access control
- Managed the vetting process and installation access badging program for an installation with 5,000+ international contractors and laborers providing service for 22,000 visits – third busiest installation in Iraq
- Ensured 2,400 new applicants met all requirements through policy, were thoroughly screened, biometrically identified and enrolled, and had appropriate justifications for access – improved processing time by 50%

Leader & Manager (Platoon Commander) – Twentynine Palms, CA **2007 – 2008**

Led, managed, trained, and supervised an organization of approximately 70 personnel in support of Air Base Ground Defense and the convoy security of Explosives Ordinance Disposal units.

- Drafted the organization's Standard Operating Procedures for tactics, techniques, and procedures for convoy security operations and trained 70 personnel with key leadership in preparation for combat operations
- Managed the organization's Anti-Terrorism Force Protection program and successfully passed a Commanding General's Inspection Program review
